

REGINA SERVICE UPDATE

October 2024

Mayfair's breast imaging services for diagnostic needs include the following.

- We offer diagnostic mammography to help detect, locate, and determine breast issues. We provide low dose 3D mammography to all our patients resulting in a greater level of detail and clearer view of the breast tissue with the same small dose of radiation as the standard mammogram. 3D mammography, also known as tomosynthesis, is 40% more accurate in detecting invasive breast cancers compared to standard mammograms.
- We now offer diagnostic breast ultrasound to see the internal structure of the breast. This exam is often used to investigate pains or lumps or to examine specific areas of concern. It can also be useful in cases of high breast density.

BOOKING INFORMATION

- Our wait times for mammography are minimal at present.
- Patients with implants can have a diagnostic screening exam at our clinic. Patients with implants cannot have a screening exam through the SCA screening program as "special" additional views are required.
- At Mayfair, a patient with a clinical concern (e.g. palp lump, focal pain in one breast) over the age of 35, will have a mammogram and an ultrasound. Under the age of 35, the patient will start with an ultrasound and then receive a mammogram if the radiologist indicates it is necessary.
- Please indicate +/- breast ultrasound as required on the mammography requisition.
- A breast ultrasound should not be ordered based on breast density alone. There must be a clinical concern.
- To order breast imaging services please fax requisitions directly to Mayfair Regina. The fax number is listed at the top of the requisition (306-569-3337).

JOIN US AT THE CANADIAN CANCER SOCIETY CIBC RUN FOR THE CURE

Mayfair is a proud sponsor at the Regina CIBC Run for the Cure as well as having a team participating in the walk. Please Visit the Mayfair booth as we join the community on October 6th at the CIBC Run for the Cure. Help cheer on our team as they support the many Canadians impacted by breast cancer. Opening ceremonies start at 9 am, race starts at 10 am at 530 Assiniboine Ave E.

For more information on our Breast Imaging services please visit radiology.ca or contact us at bd@radiology.ca.

Share your support through our social media posts on Facebook, Instagram, LinkedIn and X as Mayfair continues to educate and raise awareness throughout the month of October.

FAX VERSUS EMAIL FOR SERVICE UPDATES

To enhance our communication and ensure you receive updates more efficiently, we encourage you to consider switching from fax to email for receiving these updates. If you are receiving these updates via fax and you'd like to receive them via email, please let us know your preferred email address and we'll set it up right away. Please send your name, company name and email address to bd@radiology.ca. If you are already receiving these updates via email, there is no need to respond. Thank you for your continued partnership.

If you have any questions or to receive more requisitions, please email BD@radiology.ca.
