

IMPORTANT

Please call us at 1-866-611-2665 if you need to reschedule.

DAY OF YOUR APPOINTMENT

- You can expect to be at the clinic between 20 to 60 minutes, depending on your procedure(s) and barring any unforeseen delays.
- Please arrive 15 minutes before your appointment to allow enough time to check in with reception.
- Bring photo identification and your provincial health card.
- Take all prescribed medications as directed.
- Wear comfortable clothes.
- Please do not bring children who require supervision.

YOUR EXAM

DURATION: Up to 60 minutes

Ultrasounds use high frequency sound waves to visualize and assess various organs, structures, and vessels. It could be ordered if you or your doctor felt a lump, or if there is unusual swelling, tenderness, or pain.

WHAT HAPPENS DURING MY EXAM?

- A warm, non-scented, hypo-allergenic water-based ultrasound gel will be applied to the area of concern.
- Your sonographer will ask you to expose the area of concern to scan the area.
- The sonographer will move the transducer (probe) around the area to gather images of your organs.
- The sonographer will ask you to perform various breathing techniques that aid in obtaining the best images of your organs.
- You may be asked to lie on your side, sit or stand to bring your organs into a better position.
- You may experience mild to moderate pressure while the sonographer takes the images.
- It is not unusual for the sonographer to ask the radiologist to come into the scan room after your exam to speak to you about your results. You will then be free to leave.

WHEN WILL I GET MY RESULTS?

We do our best to have our radiologists interpret the information and forward the results to your doctor by the next business day.
