CPSA REQUIREMENTS

To meet CPSA requirements, all requisitions must include the referring provider's complete information: a legible printed name or verified electronic signature (when submitted through an EMR), practice ID, clinic address, telephone number, and a valid fax number for report delivery. A valid patient provincial health care number and clinical history relevant to the requested examination must also be included. Requisitions that are missing required information or contain incomplete clinical details cannot be processed and may result in delays to scheduling until the necessary information is received.

URGENT CASES

Timely imaging is essential, and we continue to accommodate STAT requests whenever possible. Due to an increase in STAT-designated exams, we kindly ask that this designation be reserved for truly urgent cases. This helps us prioritize critical patients and maintain timely service for all. If you are unsure whether an imaging request should be designated as STAT, please contact us at **bd@radiology.ca**.
