ALBERTA SERVICE UPDATE

November 2026

AVAILABILITIES

We currently have relatively immediate booking availabilities for the following exams at these clinic locations.

- **Screening-only mammograms** at Beacon Heights, Castleridge, Coventry Hills and Sunridge clinics.
- **Bone mineral densitometry (BMD)** exams at our Beacon Heights, Castleridge, Coventry Hills, Southcentre and Sunridge clinics. It is highly recommended that patients return to the clinic at which they had a prior BMD exam if applicable.
- **Bone scan** exams (nuclear medicine) at Castleridge clinic.
- **Thirty-minute general ultrasound** exams at our Coventry Hills, Cochrane, Mahogany Village, Sunpark, Sunridge clinics.
- **Myocardial perfusion imaging (MPI)** and exercise stress test (EST) at our Mayfair Place clinic.

MUSCULOSKELETAL DIAGNOSTICS AND PAIN MANAGEMENT

We provide specialized, multidisciplinary diagnostic imaging and minimally invasive, image-guided procedures to support the comprehensive musculoskeletal and spinal care of your patients. Through our collaborative, multidisciplinary approach, we coordinate clinical assessments with our specialist colleagues and tailored diagnostic imaging to help guide appropriate, individualized patient management for a wide range of musculoskeletal and spinal concerns including joint and soft tissue therapies.

To learn more about these exams, please visit **physicians.radiology.ca/services/pain-management** or email **bd@radiology.ca**.

SAVI – SOUTHERN ALBERTA VASCULAR INTERVENTIONAL

We are pleased to announce the launch of our newest patient site, savi.radiology.ca. Designed to provide you and your patients with more detailed information on the interventional radiology procedures we perform, this site is also linked to our **physicians.radiology.ca** site where you will find our new **SAVI consult requisition**. For more information, email **bd@radiology.ca**.

COMPLETE INFORMATION

To meet **CPSA requirements**, all requisitions must include the referring provider's complete information: a legible printed name or verified electronic signature (when submitted through an EMR), practice ID, clinic address, telephone number, and a valid fax number for report delivery. A valid patient provincial health care number and clinical history relevant to the requested examination must also be included. Requisitions that are missing required information or contain incomplete clinical details cannot be processed and may result in delays to scheduling until the necessary information is received.

MYOCARDIAL PERFUSION IMAGING AND EXERCISE STRESS TESTS

Mayfair Diagnostics offers Myocardial Perfusion Imaging (MPI), using 99mTc-Tetrofosmin, as a two-day protocol to assess for the presence of coronary artery disease. We book the rest portion of the exam on Monday, Tuesday, and Wednesday afternoons with appointment times from 11:30 AM until 2:00 PM. These appointments take approximately 1.5 hours. The stress portion is booked for the following morning: Tuesday, Wednesday, and Thursday mornings from 8:00 AM until 9:15 AM. These appointments take 2 hours on average but can be longer if follow-up is required with our supervising internal medicine specialist. Following the MPI stress appointments, we offer appointment times for Exercise Stress Tests (with no nuclear injection) from 9:30 AM until 10:15 AM. These appointments take approximately 1 hour.

We are pleased to be able to offer next-day appointments, especially for urgent bookings. Based on the results of our cardiac tests, our team may arrange follow-up imaging, such as CT Coronary Angiography, through AHS.

NEW EXECUTIVE CHAIR

We're pleased to announce **Dr. Christopher Chan**, MDCM, FRCPC, as the new Executive Chair of Mayfair Diagnostics.

A neuroradiologist and longtime member of Mayfair's Executive Committee, Dr. Chan brings a unique combination of clinical experience, physician leadership and expertise in health informatics and technology. As Executive Chair, his focus will continue to centre on our people, timely access to diagnostic imaging, strong partnerships across the health system and delivering the best possible care for patients across Alberta and Saskatchewan.

HOCKEY, HEART & HOPE: HOCKEY FIGHTS CANCER NIGHTS ARE BACK!

We're thrilled to once again be the presenting sponsor of the Calgary Flames and Calgary Wranglers Hockey Fights Cancer Nights on **November 8 (Flames)** and **November 29 (Wranglers)**. These special nights bring our community together for more than just hockey. They're a celebration of hope, resilience, and the power of standing together in the fight against cancer. We're honoured to help support such a meaningful cause alongside our Calgary hockey community.

Heading to a game? Stop by our concourse booth, meet our team, and join us in showing your support. We look forward to seeing you there as we cheer on our teams and stand together for a cause that touches so many lives.

YOUR STRATEGIC PARTNERSHIPS TEAM

Our Strategic Partnerships Managers are here to provide you with personalized service and answer your questions. For more information on how to contact us, visit **physicians.radiology.ca** or email **bd@radiology.ca**.
