IMPORTANCE OF HISTORY ON REQUISITIONS

Including patient history that matches the requested exam is important when completing a requisition. If the history doesn't match the exam being ordered or if the history is incomplete, bookings may be delayed until we can connect with you to confirm details.

Please include the relevant history related to the exam for a speedier booking process. If multiple exams are requested, please include history for all exams. Per **CPSS regulations**, we also require the patient's provincial health care number be included on the requisition to book the exam.
